LICENSE INSPECTION SIGN OFF SHEET

The applicant is required to obtain the necessary signatures from the Inspectors prior to submitting an application to the Licensing Board.

To expedite the inspection process, this sheet may be used for sign-off by inspection agents when the inspection is complete and the premise is ready for occupancy. The Licensing Board will issue the license upon submission of this sign-off sheet with the FOUR (4) inspector's signatures affixed. At his or her discretion an inspector may prefer to file a written report rather than the sign-off sheet.
