It will be a meeting of the committee. Chairman Hafey will describe our progress and our rationale and architects will outline concepts for proceeding. Bill Sanborn will invite the architects to speak. Jackie Hardy will provide a white paper sheet type recording easel to keep track of comments and will introduce the committee. Mainly public input will be gathered and organization of volunteers and fund raising will be discussed.

Notice of the meeting will be posted in Lanesville stores and delivered to the newspapers in addition to the usual postings.

The list of volunteers from Greg Smith will be appended to these minutes.

It was reported that if CPA funds were used for preservation and the building fell down during work, it is not clear if the funds would have to be returned.

It was reported that chairman David Rhinelanders has offered the support of the Historical Commission to renovation efforts and he will support any application for funding we make.

Our next regular meeting was scheduled for Monday September 19 at 2 pm at the Pond Road City Hall Annex in addition to the forum meeting on Sept 20.

Shack Restoration, Yard Sales, Volunteers, Material Donations. Please think of anything you might want to donate to a yard sale to benefit the shack restoration. We are not collecting things at this time, because some political decisions are still being worked out. If you would like to volunteer to work on the shack itself or to help with fundraising activities, please speak up by posting here or inboxing me. Also if you have any useful beams or lumber to donate let us know what they are. Thanks!

I'll offer to buy 32 sheets of plywood for roof. I think that is all that will be needed to be purchased, except some nails and screws we probably have anyway. We have offers of other roofing materials to go over that. We can borrow metal supports and floor jacks to support the building while it is being worked on. We have an offer of help from a resident with a small sawmill and there are lots of extra beams everywhere I know I can get donated. This would be for phase one and can be redone later, but will buy us several years. Plywood can go right over what is on the roof now. It is done all of the time. Later we can purchase or have donated cedar shingles.
